The student members shall be trained and guided through the Society's engagements with law firms and institutions that will allow ideas to be shared and professional relationships to be forged.

The Society shall also endeavor to become a pioneer in disseminating developments in the fields of corporate law through an online blog and journal. The online blog and journal of the Society shall strive to become a repository of opinions of students from different law colleges on all corporate and commercial matters. We sincerely hope to serve any reader of the Online Blog by being of immense utility in the search on corporate law matters.

The particular practice of corporate law is based on a strong legal foundation built by the study of law along with top-grade practical skills and work ethics. We feel that students of our college can be imparted the necessary skills required in the practice of corporate law that will help in bridging the industry-academia gap.

Keeping the above-mentioned thoughts in mind, the idea of a society, which caters to this emerging need, was conceived. And the Corporate and Commercial Law Society of our College sits at the center of this idea.
